Integrum **Due Diligence Index** shows whether the company is likely to be a shell company or not.

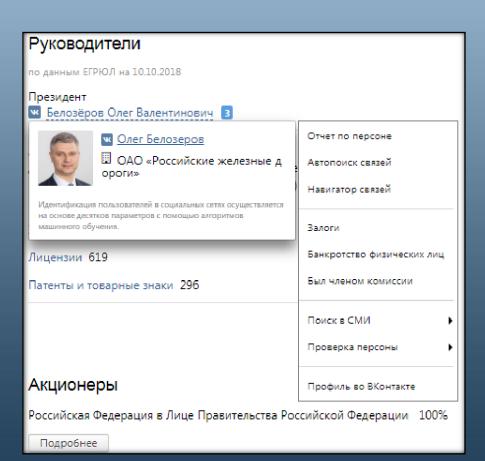

The **Credit Index** shows whether the company is able to fulfill its obligations to creditors.

Вероятность банкротства

The **probability of bankruptcy** is predicted according to the analysis of a company's current liquidity, solvency and the availability of its own floating capital.

The service allows you to quickly obtain **information about individuals** and their business connections:

- ✓ whether a person is related to a company:
- as a founder / head,
- a member of the Board of Directors / management etc.,
- √ whether a person is registered as an individual entrepreneur,
- ✓ whether a person is mentioned in the list of disqualified persons,
- ✓information on bankruptcy,
- √information on pledges of movable property,
- ✓ information from mass media and social networks.
- ✓ information on individual passports validity,
- ✓ power of attorney verification etc.

A convenient scheme shows all possible connections between companies, their founders, management and employees.

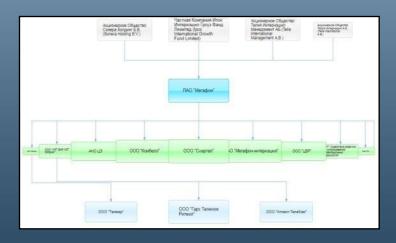

The companies' entire business history is taken into account:

- √ Head / Board members
- √ Founders / Shareholders
- √ Affiliated companies
- √ Same location
- √ Courts
- ✓ Suppliers
- ✓ Participation in contests
- ✓ Information from the media
- √ Historical ties etc.

The entire hierarchy of interconnected organizations from ultimate beneficiaries to subsidiaries and branches is presented as a clear scheme.

A map with the regions of presence of interdependent organizations marked on it is also available.

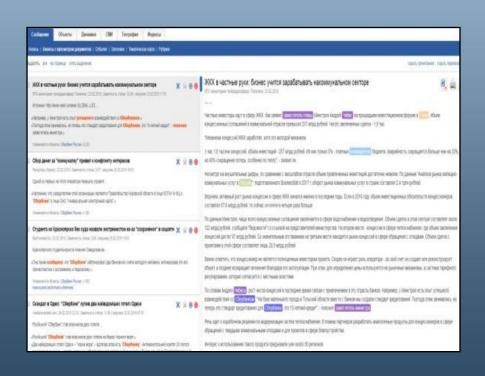

A unique tool was specially designed for **auto search of possible links** between two objects, such as:

- √companies,
- √people,
- √ a person and a company

Integrum tracks not only the signs of possible risks reflected in the official documents, but also the early **negative signs from the media and social networks**:

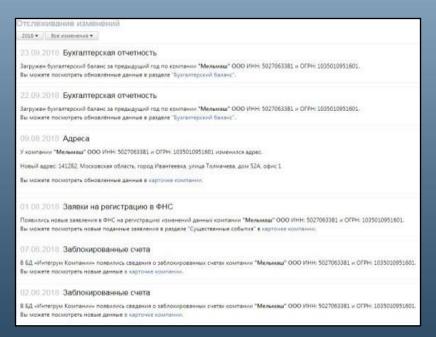

- ✓ news about criminal or civil cases started against the company's managers / founders / shareholders,
- ✓ signs of possible financial problems (due to sanctions or other reasons) etc.

Company monitoring and email alerts allow to automatically get new information about the counterparty and to be able to timely respond to the changes.

Thank you for your attention!
